DESCRIPTION OF PROPOSED WORKS

A well is to be drilled and a 25 to 30 H. P. pump installed with a State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water 1,000 gallon capacity tank installed (to act primarily as a sand trap), is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions, which in turn is to be connected with the existing water system of pipes, etc.

- Estimated cost of works \$9,000.00
- Estimated time required to construct works 30 to 60 days.
- Remarks This will supply additional needed water because of increased demands. It is fairly certain that by July the present supply will be inadequate.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source and is limited to what the well will produce but not to exceed 1.0 c.f.s. If well is flowing, a valve must be installed and maintained to prevent waste. A meter must be installed in the discharge pipe line, near the point of diversion, and accurate measurements must be kept of water placed to beneficial use. It is understood that this right must allow for a reasonable lowering of the static water level at permittees well due to other ground water development in the area. This source is located within an area designated by the State Engineer pursuant to Section 4 of the 1939 Ground Water Act (Chap. 178, Stats. 1939 as amended); therefore the State retains the right to regulate the use of the water herein granted at any and all times. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second.

Actual construction work shall begin on or before February 27, 1954
Proof of commencement of work shall be filed before March 27, 1954
Work must be prosecuted with reasonable diligence and be completed on or before February 27, 1955
Proof of completion of work shall be filed before March 27, 1955
Application of water to beneficial use shall be made on or before February 27, 1955. Proof of the application of water to beneficial use must be filed with State Engineer on or before March 27, 1955
